SKILLS

- CSS
- HTML
- Python

- Cisco routing & switching
- JavaScript

- Git

PROFILE

Driven individual with a strong will to continuously improve skills. Fast learner and very adaptable. Ready to overcome any obstacle . Works great as part of a team, or alone.

EDUCATION

CommonWealth Coders – *Web Development*

August 2021 – December 2021, Kentucky

Full stack web development boot camp. Course designed to prepare applicants for a junior developer role.

Self Taught

Have worked independently teaching myself various skills such as routing and switching, and Python. The basic concepts of object oriented programming, functions, and the logic involved to accomplish specific tasks fascinates me. I make use of various online resources as well as discussing topics with peers.
